SUMMARY

Full-Stack Developer seeking opportunities in web development or cybersecurity to apply expertise in software development, modern web technologies, and offensive security principles while gaining hands-on industry experience and contributing to innovative projects.

SKILLS

Programming: Python, C#, JavaScript, HTML5, CSS3,

Frontend: React.js, Tailwind CSS, Component-Based Development

Backend / Web: Node.js, Express.js, REST APIs, JWT Authentication, API Architecture

Database: PostgreSQL, Prisma ORM, MySQL, Supabase

Cybersecurity: OWASP Top 10, Vulnerability Assessment, Nmap, Burpsuite

Tools: Visual Studio, VS Code, Git, GitHub, XAMPP, Ubuntu Linux

Concepts: Object-Oriented Programming (OOP), UI/UX Principles, Debugging & Problem Solving

PROJECTS

ValsKconnect Web-Based Platform / *React.js, Tailwind CSS, JavaScript, Supabase*

- Developed a centralized platform connecting citizens with local government services, enabling access to announcements, service requests, and community updates
- Built a responsive, accessible interface using React.js and Tailwind CSS for cross-device compatibility
- Integrated RESTful APIs and dynamic components to handle real-time data and improve user interaction

BoardMetricsPH / *Next.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Python*

- Developed a web-based educational analytics platform that transforms PRC licensure examination results into a centralized and searchable database. Built a responsive, accessible interface using React.js and Tailwind CSS for cross-device compatibility
- Built interactive dashboards and search features for analyzing school performance, board examination rankings, passing rates, and historical trends.
- Designed and managed a Supabase PostgreSQL database with Row-Level Security (RLS) and cloud storage for secure data management.
- Developed Python-based ETL pipelines using regex, Playwright, and OCR-assisted extraction to collect, process, and normalize PRC examination data.

ARTA Feedback Survey System / *HTML, CSS, JavaScript, MySQL, PHP*

- Developed a feedback system for citizens to evaluate public services in line with ARTA standards
- Designed and managed a MySQL database to securely store and organize survey responses
- Implemented validated survey forms and CRUD functionalities to ensure accurate data collection and reporting

GYMSHREK Management System / *C#, .NET, MySQL*

- Developed a gym management application handling member registration, attendance tracking, and subscription management
- Implemented CRUD functionalities and data validation to ensure accurate record-keeping and system reliability
- Built features for tracking memberships, payments, and schedules to streamline daily operations

EDUCATION

Bachelor of Science in Information Technology

Pamantasan ng Lungsod ng Valenzuela | Maysan, Valenzuela City | 2023 – Present

AFFILIATION

AWS User Group E:Novators Philippines

Operations Officer | 2026 – Present

AWARDS

- **1st place AWS AI Agentic Football Cup** -AWS USER GROUP PHILIPPINES
- **2nd Place, Digital Game Category** - Pamantasan ng Lungsod ng Valenzuela (2025-2026)
- **With High Honors** (2021-2022)
- **With Honors** (2022-2023)

CERTIFICATIONS & SEMINARS

- Caffeine AI Hackathon Participant, Manila (2025)
- Cybersecurity CTF Participant, Pamantasan ng Lungsod ng Valenzuela (2026)
- Tech-a Muna Episode 4: Bots, Bytes, and Bottom Lines - AI in Business, DLSU Animo Labs (January 2026)
- Full Commit: Tech Hustling to the Future, Pamantasan ng Lungsod ng Valenzuela (March 2026)
- The Data Science Paradigm: Shaping Tomorrow's Intelligence, Pamantasan ng Lungsod ng Valenzuela (March 2026)
- Navigating Change: A Holistic Approach to Digital Transformation, Cloud Solutions & Project Management, Pamantasan ng Lungsod ng Valenzuela (March 2025)
- Analyze The Past, Code The Present, Design The Future, Pamantasan ng Lungsod ng Valenzuela (April 2026)
