PROFESSIONAL OBJECTIVE: An IT student seeking an internship in QA, Web-Development or cybersecurity to apply my skills in software development fundamentals and introductory offensive cybersecurity concepts while gaining hands-on industry experience.

EDUCATION:

College

Pamantasan ng Lungsod ng Valenzuela - 2026-PRESENT
Bachelor of Science in Information Technology
Maysan, Valenzuela City

SKILLS:

Cybersecurity & Pentesting: Web security fundamentals, Introductory offensive security concepts, penetration testing, and basic reconnaissance techniques
Tools: Burp Suite, Nmap, Ubuntu (Linux), open-source terminal-based security tools for reconnaissance and security testing
Programming: C#, JavaScript, HTML5, CSS3
Frontend: React.js, Tailwind CSS, Component-Based Development
Backend/Web API Integration, Authentication & Session Handling
Database: MySQL, CRUD Operations
Tools: Visual Studio, VS Code, Git, GitHub, XAMPP, Ubuntu
Deployment & DevOps: Basic Deployment (Vercel/Netlify) Environment Configuration
Concepts: Object-Oriented Programming (OOP), UI/UX Principles, Debugging & Problem Solving
Machine Learning (Basic): Data Preprocessing, Regression Analysis, Model Training & Evaluation, Scikit-learn, Pandas, NumPy

PROJECTS:

ValsKonnect Web-Based Platform
Technologies: React.js, Tailwind CSS, JavaScript, REST API

- Developed a centralized platform that connects citizens with local government services, enabling access to announcements, service requests, and community updates
- Built a responsive and user-friendly interface using React.js and Tailwind CSS for accessibility across devices
- Integrated RESTful APIs and dynamic components to handle real-time data and improve user interaction

ARTA Feedback Survey System – Web Application
Technologies: React, Tailwind CSS, JavaScript, MySQL, PHP

- Developed a feedback system that allows citizens to evaluate public services in line with ARTA standards
- Designed and managed a MySQL database to securely store and organize survey responses
- Implemented validated survey forms and CRUD functionalities to ensure accurate data collection and reporting

Gym Management System – Desktop/Web Application
Technologies: C#, .NET, MySQL

- Developed a gym management system to handle member registration, attendance tracking, and subscription management
- Implemented CRUD functionalities and data validation to ensure accurate record-keeping and system reliability
- Built features for tracking memberships, payments, and schedules to streamline daily gym operations

Housing Price Prediction Model
Technologies: Python, Scikit-learn, Pandas, NumPy

- Developed a machine learning model to predict housing prices using regression techniques
- Performed data preprocessing, including handling missing values and feature selection
- Trained and evaluated the model using Scikit-learn, optimizing performance through parameter tuning

AWARDS:

- 2nd Place – Digital Game Category at Pamantasan ng Lungsod ng Valenzuela (2025–2026)
- With High Honors (2021–2022)
- With Honors (2022–2023)

Certificate and Seminars:

- ***Caffeine AI Hackaton Participant,*** *Manila — 2025*
- ***Cybersecurity CTF Participant*****,** Pamantasan ng Lungsod ng Valenzuela - 2026
- ***Tech-a Muna Episode 4: Bots, Bytes, and Bottom Lines: AI in Business*****,** DLSU Animo Labs January 2026
- **Full Commit: Tech hustling to the Future,** Pamantasan ng Lungsod ng Valenzuela — March 2026
- ***The Data Science Paradigm: Shaping Tomorrow's Intelligence,*** Pamantasan ng Lungsod ng Valenzuela — March 2026
- ***Navigating Change: A holistic approach to Digital Transformation, Cloud solutions, & Project Management,*** *Pamantasan ng Lungsod ng Valenzuela — March 2025*
- **Analyze The Past, Code The Present, Design The Future,** Pamantasan ng Lungsod ng Valenzuela — *April 2026*
